DEPARTMENT OF COMPUTER SCIENCE

Subject: Minutes of the DARC Meeting (SP-24)

Dated: 26-2-2024 at 1100 Hours

Venue: CS Conference Room

Chaired by: HoD (CS)

Attended by: DARC Members

The following minutes document the proceedings of the 1st DARC meeting for Spring 2024, which commenced with the name of Allah.

1- Evaluation Process for Final Year Projects (FYP):

The following needs consideration.

- 2.1. It has been observed that there are discrepancies between the marks given by the Internal Committee and the Supervisor. To address this, we propose implementing a mechanism to ensure a more balanced distribution of marks. It has been decided that both the Supervisor and the Internal Committee should evaluate FYPs based on the prescribed guidelines outlined in the evaluation form. During the evaluation process by the Internal Committee and the Supervisors, it is essential that the questions asked are directly related to the FYP and are documented for later reference in case of any complaints.
- 2.2. There have been instances where not all members of the viva committee are present, which understandably raises concerns and complaints from students as it can impact their marks. Therefore, it is imperative for the Viva Committee Head to ensure that all members, including the replacement of max one member, if necessary, are present during each viva session.
- 2.3. Another issue noted is that FYP reports are sometimes received in a raw format, which may give the impression that they have not been thoroughly evaluated before approval by the Supervisor. It is essential that the report, approved by the departmental committee, undergoes proper evaluation by the Supervisor to ensure its quality. The approved reports are available online at the following URL: <http://111.68.98.91/rms/student-console/fyp/downloads/list>.
- 2.4. Feedback from the Open House suggests that some of FYP ideas are centered around LMS-based solutions, non-industrial problems, or duplicate projects. To address this, we have decided to establish a single large committee responsible for evaluating FYP ideas and projects for FYP-I. This committee will ensure that the selected projects are diverse and innovative.

2- Student Registration:

Detailed discussions were held regarding student registration. It was noted that a majority of students had completed their registration, with the remaining students primarily facing issues related to fees and installment applications.

3- Action Plan:

The committee resolved that the DCO would actively remind and notify students, utilizing email, calls, SMS, and the Class Representative (CR) WhatsApp group, to prioritize their registration.

The meeting concluded with a vote of thanks.
